

# Shell Bootcamp 2024

## 3 Reflections for Week 1

Gayathri Mohandas

Date : 30-Aug-2024

# About Me

We all are on our own journey, at our own pace.

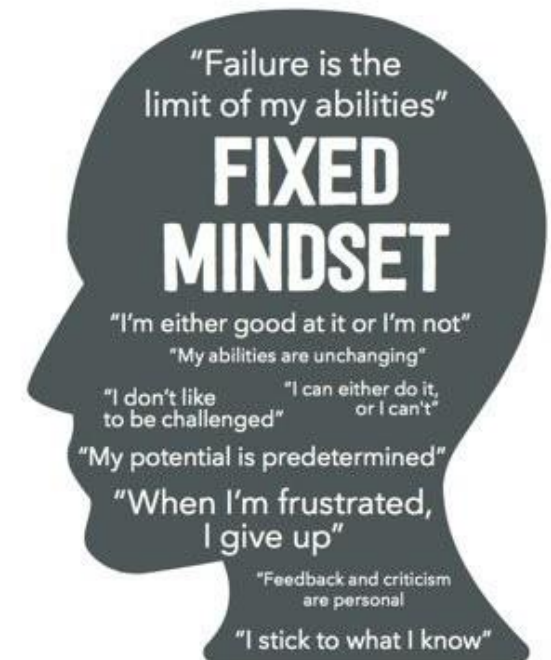

**My learnings from this week!**

# Learning 1 | My takeaways

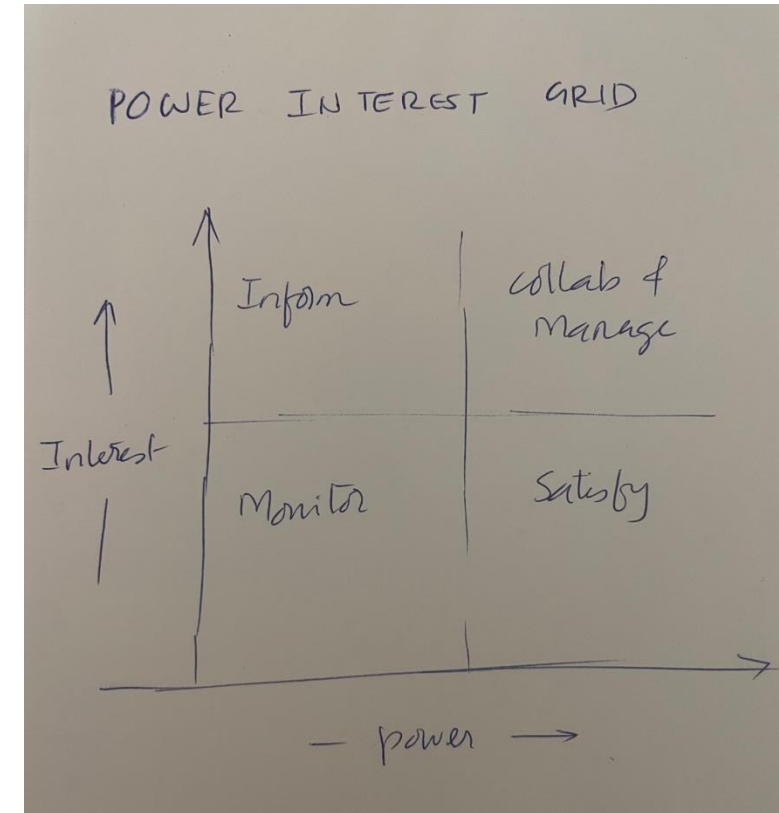

- One of my key learnings would be of mindsets.
- There are two mindsets – fixed and changing. A changing mindset helps you get better and evolve.
- I personally believe there is a changing mindset to help with the transition from college to corporate. In the energy sector one can also see the not to be fixed on fossil fuels for energy but also explore the renewable sources.

## Learning 2 | My takeaways

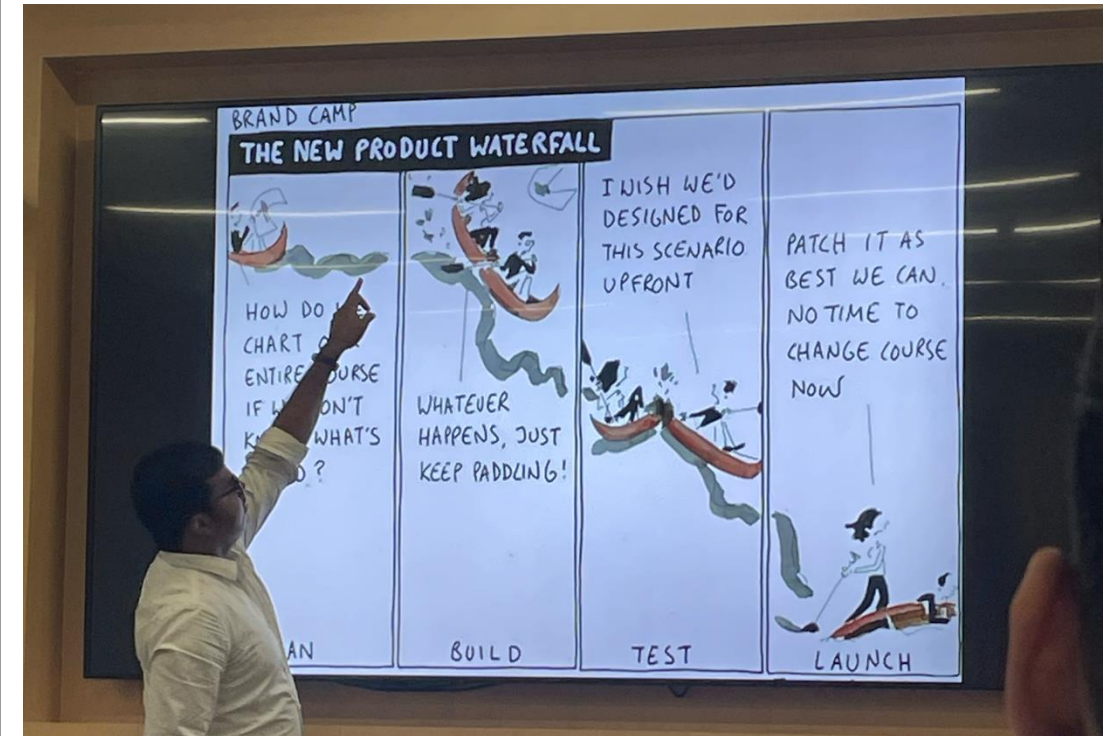

- Understanding Stakeholders
- Recognizing the stakeholders in various scenarios through the case studies
- In the energy sector, we deal with various projects, problem statements and even business owners. So, identifying the stakeholders in such scenarios using the power interest grid is idle.

## Learning 3 | My takeaways

- Agile Methodology vs Waterfall
- How Agile frameworks come into play
- Use of AzureDevOps to implement the agile frameworks to handle the various epics and user stories.

# Relevance of learnings for my organization

# Learning 1 | Relevance for Shell

How I feel Shell implements this learning

- Mandatory learnings
- Courses and certifications to encourage to explore and go further instead of sticking to just one thing

How I feel Shell benefits from this learning

- Creates a thriving employee community
- Community brings up changes to the organization, taking shell to higher altitudes.

Trainings from:

– **unext**

---

# Learning 2 | Relevance for Shell

How I feel Shell implements this learning

- By assigning Business Analysts to understand the requirements and ensure right communications across all departments

How I feel Shell benefits from this learning

- Right stakeholder management ensures better project outcomes
- Avoid misunderstandings and ensure better communications

# Learning 3 | Relevance for Shell

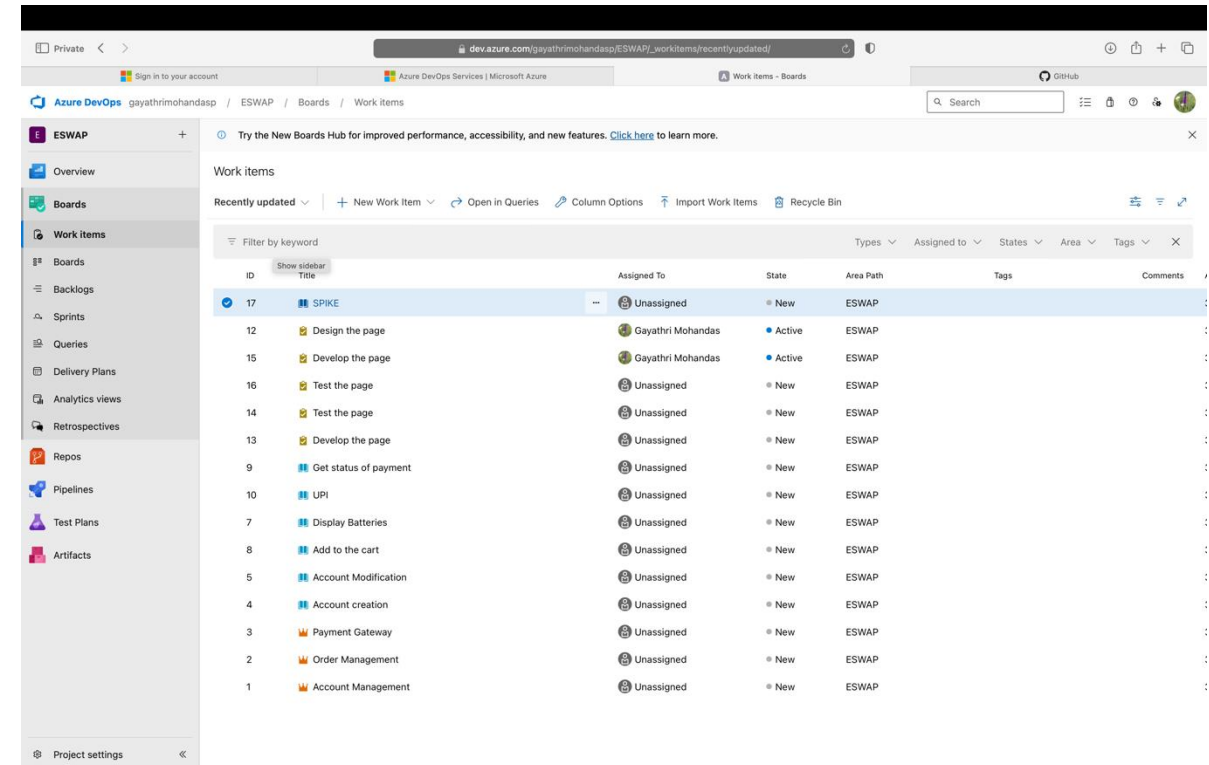

How I feel Shell implements this learn

- With the help of Azure DevOps across all departments to assign tasks and conduct requirement benefits
- Standups and demo sessions

How I feel Shell benefits from this learning

- Project flow and organization is ensured

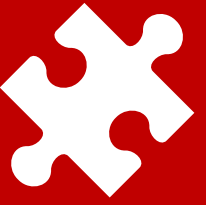

# Challenges in implementing learning

# Challenge faced while implementing Learning 1

What were the challenges I faced while implementing Learning 1 and my plan to overcome them

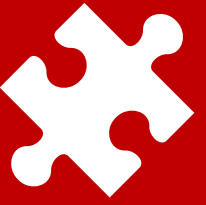

Public speech; Instant elocutions;

Planning to resolve via regular practice and join toastmasters

<https://github.com/Gayathri-Mohandas/UNext-Bootcamp>

# Challenge faced while implementing Learning 2

What were the challenges I faced while implementing Learning 2 and my plan to overcome them

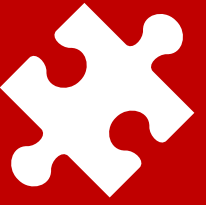

Identifying the primary and secondary stakeholders

Case studies and demo roleplays helped

<https://github.com/Gayathri-Mohandas/UNext-Bootcamp>

# Challenge faced while implementing Learning 3

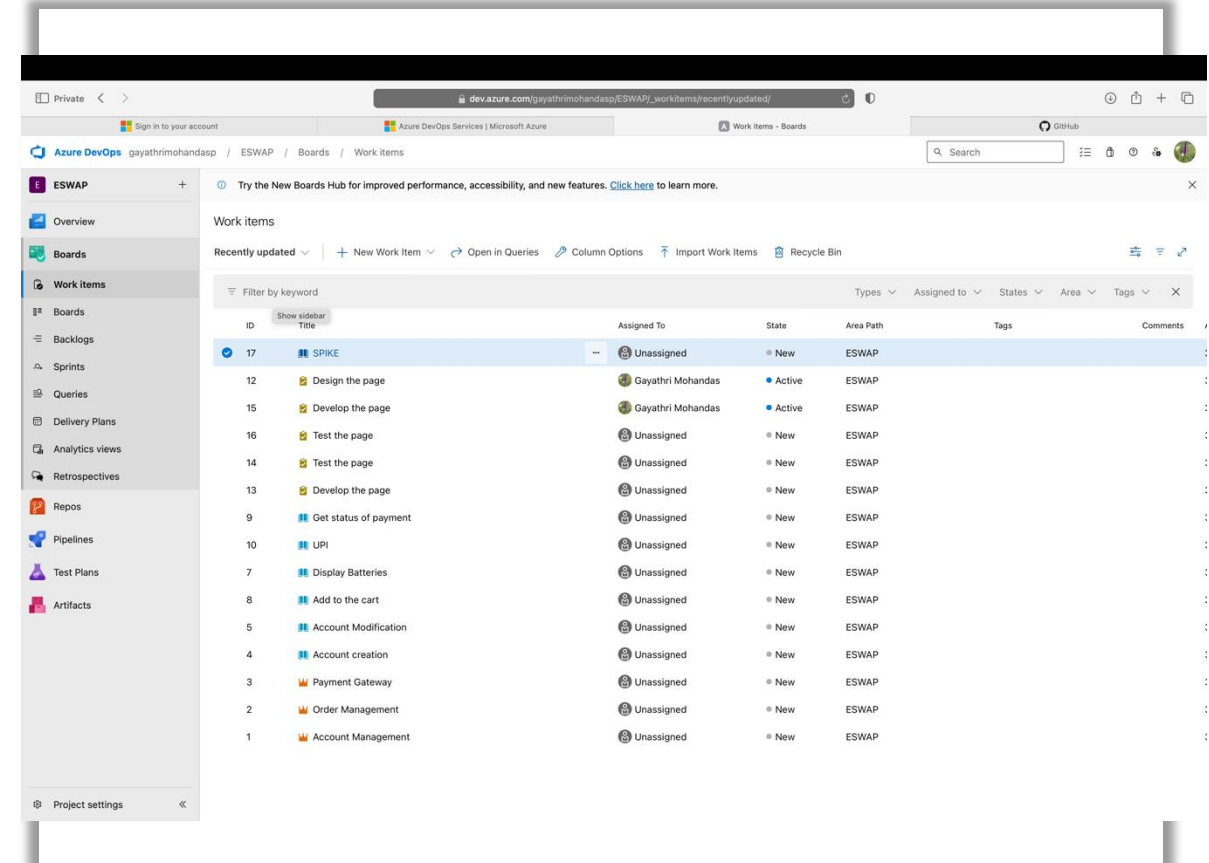

What were the challenges I faced while implementing Learning 3 and my plan to overcome them

Understanding terms and its uses

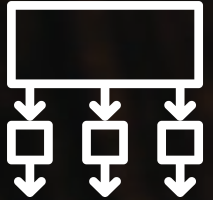

Got better after working hands-on a topic EV

<https://github.com/Gayathri-Mohandas/UNext-Bootcamp>

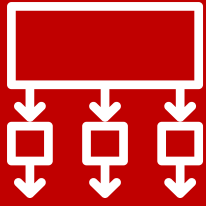

# Action Plan

# My Action Plan for this Week

Actions	Timeline	Status
<ol style="list-style-type: none"><li>1. Practice public speaking</li><li>2. Azure devOps Agile</li></ol>	<ol style="list-style-type: none"><li>1. Practice few topics mornings and record them</li><li>2. Watch more YouTube tutorials over weekend</li></ol>	<ol style="list-style-type: none"><li>1. In progress</li><li>2. In progress</li></ol>

**Learning is also Fun!**

# Learning is also Fun!

Please share how "Your" learning was fun this week

- Group activities – we had to identify a sequence while staying blindfolded.
- Funny group presentation on socks
- Logo designing, team tagline

*Shine Bright in Every Trench ✨*

# Summary

- Behavioral bootcamps followed by BA and Agile Technical sessions
- DBMS, Software testing, Devops, Cloud, Case work
- Transition to technical sessions

The background of the slide is a dark, textured surface with a pattern of glowing, golden-brown lines and characters, reminiscent of the 'digital rain' effect from the movie The Matrix. The characters are small and appear to be falling or flowing downwards, creating a sense of motion and depth. The overall color palette is dark with warm, golden highlights.

# Thank You
